

**Selah Downtown Association** (SDA) is a non-profit community organization working to revitalize downtown Selah, Washington and promote the downtown business district as the community's social, cultural, and economic center. SDA advances this mission by utilizing the Four-Point Main Street Approach developed by the National Main Street Center; emphasizing community organization, promotion, design, and economic vitality. By applying this approach, SDA is leading community-focused and grassroots efforts to re-imagine, redevelop and transform the city of Selah, beginning at its core.
